REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: The primary reason for the allowance of the claims in this application, is the recitation of the specific bucket assembly within the refrigerator i.e., a bucket frame and a bucket as structurally defined and functionally interrelated as stipulated in all the independent claims, in combination with the other elements recited.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

2. The prior art made of record and not relied upon was considered pertinent to applicant's disclosure. Didion, Money, Squire, German publication 222147, and Australia publication 154,076 describe holding assemblies with refrigerator structures.
